NEWSLETTER

September 2025
Newsletter No.176

STRATFORD AND DISTRICT RIGHT TO LIFE IS A PRO-LIFE, non-denominational organization of individuals who believe that all life - before and after birth - has a right to care and protection. We try to serve as a centre of information on the abortion issue, and to reach out to all Canadians concerning the preservation and dignity of human life, and also to urge one to take action in our democratic society.

PRESIDENT'S MESSAGE

Dear Members: It gives me great pleasure to introduce our new Newsletter Editor and Correspondence Secretary, Jared Thorne, who was elected to a 3-year term at our last AGM in April 2025.

1. We are moving our Annual General Meeting (AGM) back to the Fall which better relates to our fiscal year end and the changing of the guard when we elect new members to join our board of directors and enlist the talents of many to serve on committees and at some of our events and causes. YOU determine what those are. Please consider serving a term (3 years) on the board to bring new ideas and enthusiasm to this very rewarding work. You are critical to our success and legacy! Four of the 9 board positions are up for election this year. One for 1 year and three for 3 years. Give me a call 519-616-3536 or email any questions to kahle123@rogers.com.
2. Please post the enclosed posters for our next two events:
-The LIFE CHAIN on Sunday Oct 5th; and
-Our AGM Dinner and fabulous guest speaker Josie Luetke on Saturday Nov 15th
3. Life Flag Order Form: Generous sponsors are covering not only the cost of the flag, sticker or license plate holder, but also the cost of installation of the flag meaning new footing or bracket, and pole or bracket to fly them on!
4. Your membership is the lifeline of the S&DRTLA. We ONLY have single members and the price is still ONLY \$20. Please copy and fill out a membership form for each member on the back of the Flag Order Form and return it with a cheque to the address noted on it. Thank you for your support!

This newsletter is my last message as President. The AGM will be occurring before the December edition and I am unable to run for re-election at the end of this term. We have a talented group and I ask you to step up and join them.

GOD is Good!

CHALLENGES FACING THE CANADIAN DEFENDER OF LIFE IN 2025

- The government is on the side of the opposition, and likely will be for the next 4 years
- Legal restrictions are being placed on us to prevent us from speaking our side and from being seen by the opponents
- Little to no political representation as the subject has been made taboo
- Culturally, the subject of "pro-life" "pro-choice" is too politically charged and we are encouraged to not discuss it
- Majority support for MAiD, irrespective of its critical flaws (advocating death to people who cost too much)

With all of these challenges, would you still stand by your convictions? Consider joining the Stratford & District Right To Life Association. Your money stays within the community.

NEWS SINCE OUR LAST EDITION

June 14-16, 2025

Members of our organization spent the weekend, and some additional hours into the week, cleaning up the Avondale cemetery. In total \$400 of your donations went towards the project and over 70 people were directly effected with untold numbers having benefit. In addition to those 70 people, we also managed to clean an angelic white statue. We eagerly await next year to target specifically people who died in our service, such as veterans. If you want to see the differences in person, enter on the John Street and they will be the first stones you see. See picture at bottom of page

UK Decriminalization of Abortion (June 17, 2025)

UK Parliament voted 379-137 to decriminalize abortion in England and Wales, ending prosecutions for women terminating pregnancies, including after 24 weeks.

US Supreme Court Rulings (June 26, 2025)

Ruled 6-3 that states can exclude Planned Parenthood from Medicaid funding, potentially limiting abortion service access.

Rescission of EMTALA Guidance (June 3, 2025)

Trump administration rescinded guidance requiring hospitals to provide emergency abortion care under EMTALA (Emergency Medical Treatment and Active Labor Act), affecting access in states with bans.

Montana Supreme Court Ruling (June 12, 2025)

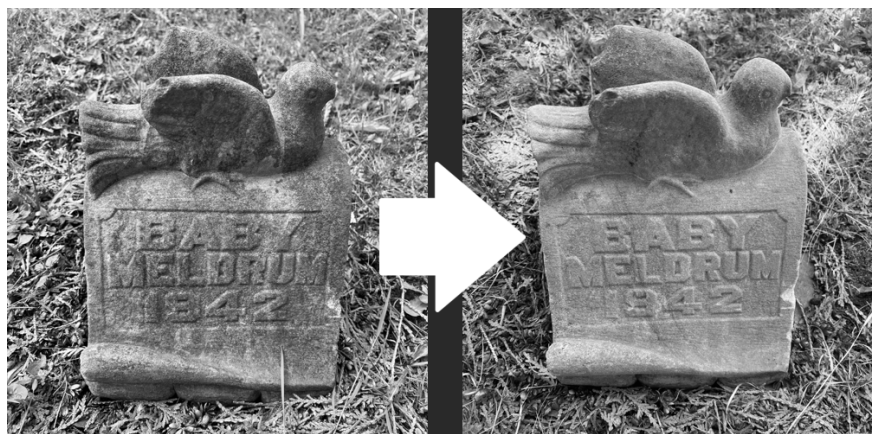

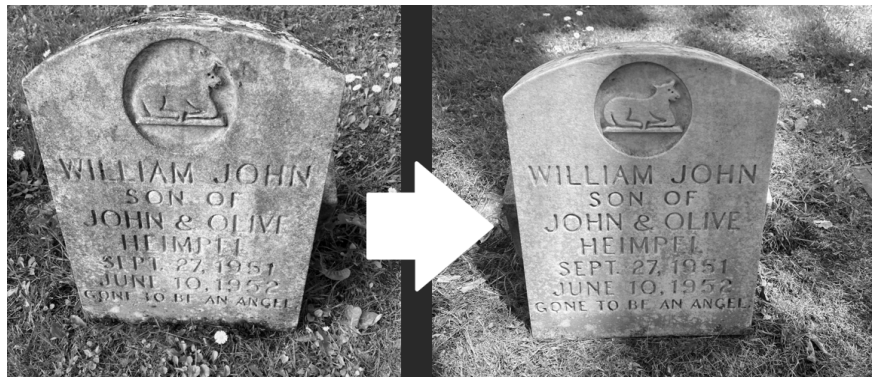

Struck down 2021 abortion restrictions, including a 20-week ban, as unconstitutional, preserving abortion access in Montana.

Pro-Life Conference (June 20-21, 2025)

National Right to Life Conference in Kansas highlighted pro-life strategies and AI, though it received less mainstream attention.

Virginia Abortionist (July 2025)

The Progressive Anti-Abortion Uprising released a video of a Virginia abortionist, Jessica Rubino, describing abortions as "easy" and "fast," sparking outrage among pro-life groups for dehumanizing the child.

LETTERS FROM THE COMMUNITY

Dear defenders of life:

To be a pro lifer in the modern world has become increasingly difficult. It seems the government is firmly on the side of the opposition, and while things may be changing in the world, it remains to be seen whether things will get better, or worse. Being pro life can often be a very nuanced thing. For its widely understood that most people who have abortions, would rather not, but are driven to it or feel as though this is their only option. With the government having misunderstood the cause of the countless deaths related to these beliefs, our approach should reflect the arguments of the time. Today, the government is against us. Therefore, we should stop lobbying them specifically, but for the hearts and minds of the people themselves.

After all, if we have decided that if your quality of life is too disgusting or distasteful, we will offer to "off" you. If you're about to have a "defective" child, we will offer to fix it and if we can't do that, we will ensure that the fix is applied through death. If we determine that a person is about to come into the world that has the wrong qualities or attributes, we will modify their genetics to give us what we want. In short, we are the government and the government is playing God and while we can do little to prevent the zeitgeist from doing what it feels it needs to, we can always influence those around us to see the light of Truth not just through the graces of God, but also as a scientific truth.

It hasn't always been the government that looked after us. If it hasn't always been, then it doesn't always need to be. Now more than ever we possess powers beyond those that our predecessors had. It is up to us to use these tools to develop a life that allows us true choice. To choose life, love, liberty and happiness over beliefs that a child could ruin your life.

In short, the Stratford District Right to Life is dedicated to underscoring the universal truth, that all life has value. That all people, regardless of their perceived ability, are part of the global butterfly effect. It takes all types to make the world go 'round, and if we begin to decide who is right to be here and who is not, then we must truly understand how the butterfly effect works, for anything else would mean we are eliminating aspects of life which may very well have only been truly visible to the masses via that individual. All people, regardless of anything that may define them, have value gifted to them from on-high, which can never truly be taken away. It is not only in our best interests, but our duty to protect the ideals which until this point, have crafted as close a utopia as earth has ever seen. I hope through your time reading my letters, you may know that this is a universal truth. A truth which can never change.

Thank you for taking the time to read our newsletter. As you may know, the Stratford District Right to Life is going through big changes! We greatly appreciate your support, and are looking forward to the great things we can deliver together.
